System

## Using the Loxo® Fence System

Your Fence – build it with Loxo®

Solid, masonry and lightweight

High fire resistance

Sound acoustic qualities

### The Loxo® 50mm Lightweight AAC Panel System

The Loxo® Panel System is designed to be used in new residential construction, extensions or re-cladding for houses & Low Rise Multi-Residential External Walls using timber or steel frame. The system consists of 50mm thick Loxo Panels, reinforced with corrosion protected steel in both directions, installed horizontally in a “stretcher-bond” pattern to vertical battens attached to the load bearing frame. For fast, clean construction, Loxo panels are available in standard sizes of 2200mm in length and 600mm in width.
